Homes, Stores Hit by Burglars

20 Crimes Reported in Area during Weekend; Venice Youth Arrested

Five business establishments and occupants of four homes were victims of thieves as 20 cases of theft and burglary were reported to Quad-City and Madison county police authorities during the weekend. A Venice youth was arrested.

Hollis Fifer Jr., 19, of 1208 Douglas street, Venice, was charged with burglary, attempted theft and possession of a stolen auto after being arrested at 3 a.m. Saturday near the Gulf, Mobile & Ohio Railroad store room at the end of Main street, Venice. The missing 1962 Ford of Clarence Bradley, 1020 Calhoun street, was recovered. Fifer allegedly kicked out a window of the building, and moved copper wiring and motor bearings inside the store room. Fifer's bond was set at \$15,000 on all three charges. He will be transferred to the county jail, police said.

Alerted by a watchman who became suspicious of a group of three or four men in a car parked early Friday morning near Heiken's Men's store, 408 Madison avenue, Madison police arrived at the store within 30 seconds after the store's burglar alarm sounded but the men already were gone, officers reported.

Police said they were parked in an alley behind the store when the alarm sounded. By the time they drove in front of the building the car and its occupants were gone. The store's burglar alarm sounded but the men already were gone, officers reported.

Top Officials Endorse Vadalbene in Primary

The three top Democratic state officials of Illinois came here Friday night to publicly endorse State Rep. Sam M. Vadalbene of Edwardsville in the March state senate primary.

Lt. Gov. Paul Simon, State Auditor Michael Howlett and Secretary of State Paul Powell voiced high praise for Vadalbene, who hosted a dinner honoring several hundred Democratic committeemen and committeewomen and public officials at the Coolidge junior high school campus.

Vadalbene pledged a vigorous campaign in the primary against Attorney Dick H. Hughes Jr. of Edwardsville and, if successful, in November against Sen. Merrill Otisner (R, Edwardsville).

Simon said he might favor Mudge if the two were competing for constitutional convention delegate, but that he favors Vadalbene for legislative service.

Full-Time Pledge
Simon noted that Vadalbene plans to devote full time to what he has legislative experience, has sought to remedy constitutional problems, and has record of active community service, works hard, is concerned about "those at the bottom of the economic ladder" and has a record of election success.

The lieutenant governor said he is taking a stand in only

two primary races. In the other, he supports Walter T. Simmons of Venice, incumbent Appellate Court clerk.

Secretary Powell placed major emphasis in his talk on support of American servicemen and on extending progressive social legislation. He cited his own extensive General Assembly experience in giving Vadalbene high grades for legislative efforts.

Eye on Redistricting
Several speakers cited the role of the next legislature in Congressional, state senate and state representative reapportionment.

Buddy Davis, a United Steel workers official, said the AFL-CIO Committee on Political Education will endorse Vadalbene for supporting legislation favored by the labor movement.

Vadalbene announced that Dean Bridwell will be his campaign chairman. He named Charles H. Hiles served as treasurer and those assisting in the arrangements included James "Red" Gort, Walter Weiden and Peggy Bruch and Andy Rapoff.

Prayers were offered by Fr. Terry Shea of St. Mark's Church, Venice, and Fr. Ralph Guido of St. Joseph's Church, Rend.

Speakers included U.S. Cong. Stephen J. Findley (D, Ill.). (Continued on page 19, col. 5)

Council To Review Finances Tonight

Mayor Calls Special Session; GC Reserve Funds Nearly Depleted

A special meeting of the Granite City council has been called for 8 o'clock this evening to review the city's financial dilemma.

The December financial report is expected to be ready for the council tonight to provide a more detailed picture of fund balances—or deficits.

Last Monday night, at the close of the regular council session, the aldermen were briefed by Rich, who at that time commented that he did not see how the city could meet the February payroll.

There are 31 months remaining in the current fiscal year, and the city's only ray of hope is the projected \$200,000 in Civil Defense emergency disaster grants from the federal government.

Available Income
Otherwise, the only income available to the city would be the \$400 a month from the sales tax and the city's share of the state income tax, which is about \$200 a month—a total of \$600.

A monthly payroll is \$120,000. The city's own bond balance of \$500,000 in the sales tax reserve has been wiped out and was down to \$230 last week. Other reserve funds were virtually empty.

The council last Monday night approved last Monday night to meet the January payroll.

Sewer breaks in recent months have cost the city \$200,000, nearly all of which came from the general fund.

Action Sought in Oct.
Facing the financial pinch, Mayor Partney submitted a proposal to the council on Oct. 6, calling for an answer or at least a proposal by Oct. 20 to solve the financial problem.

The council took no action, and announced the 31-page recommendation.

The mayor noted the council was trying to follow through with its \$140,000 budget, when \$130,000 of the income was pegged at \$3,500,000, and the cost of sewer breaks were continuing.

In his last term and in his current term, the mayor has stated he will not permit the city to go into debt spending and in his last term, he said that if necessary he would close down one fire house, order temporary layoffs of 28 city employees or place all employees on a four-day work week with elimination of all overtime.

He also called for an immediate halt to all equipment purchases and for cutbacks in city improvement projects, such as sidewalks, repairs and replacement.

His suggestion was for the city to raise the city's fire insurance rates and layoffs for six firemen; three policemen; five crossing guards; one fireman; one custodian and one mailman, with the city hall work to be done under contract, and several clerks in city hall offices.

He recommended the city completely curtail civil defense expenditures, and to delegate authority for air pollution control to the state to eliminate any city expenditures.

20 QUAD-CITY TRAFFIC FATALITY
enough people who can talk to the potential user."

Griffith added that every user can't be arrested and that the city's police officers could find the solution. "We in law enforcement can cope with robbery and murder. The law is clear cut. But on marijuana, it's not."

Deputy Nicholas said the rise in drug abuse has posed new problems. "We don't have all the answers, but we're learning fast, and with the mobility of the city, we need co-operation of every law enforcement agency in Madison county to curb the increase in use of drugs and in crime."

Will Get Worse
State Atty. R. W. Griffith commented, "Drug abuse will get much worse before it gets better. I see no solution in stopping it. There is much more needed, and I don't think right now educators can talk to young people—the potential users. We speak of rehabilitating them, and we don't have

\$12,000 FIRE LOSS. The former home of Mr. and Mrs. Grover Barton, 2825 West 22nd street, demolished by fire at 9:40 a.m. Friday. Loss was estimated at \$8000 to the seven-room frame structure. \$3500 to contents and \$500 damage to two parked autos. Fire Dept. Ensignman Robert Harris sustained minor injuries in helping fight the 3 1/2-hour blaze.

House Fire Destroys Family's Possessions

A young couple with two infant children, after moving to Granite City three months ago because "we just like the idea

of living here," lost all their possessions Friday shortly before 10 a.m. when fire swept through their seven-room rented home at 2825 West 22nd street. Less in a back bedroom used as a storage area, was estimated at \$12,000.

Grover and Nancy Barton, 21 months, and Debbie, 12 months, underdressed by losing all their household furnishings, clothing and personal possessions, returned to Granite City during the weekend and rented an apartment at 2174 Cleveland blvd.

Since the fire totally destroyed the home, the family was briefly with Mrs. Barton's sister in St. Louis, the couple's only relative in this area.

Admitted to St. Elizabeth Hospital was James Cochran, 20, of St. Louis, who was burned about the forehead and lips. He was riding on the train, and is believed a flare on the engine ignited gas escaping from a slow leak in the line.

Firemen were unable to stop the shooting flames from the steel mill's gas line, but a crew from Illinois Power Co. shut off a valve near Lee avenue about 5:30 p.m.

The blaze also scorched a utility pole at the southwest corner of 28th and Omaha streets. The ruptured gas line did not disrupt operations at the plant, a company spokesman said. The underground line runs from the North Plant of the basic oxygen furnaces to supply fuel to keep molten vessels alive.

11 Undergo Surgery At Local Hospital
The following are recovering from surgery which they underwent recently at St. Elizabeth Hospital:

Dorothy J. Gordon, 2189 Delmar, 28 hours; Margaret M. Yarbrough, 2848 Saratoga avenue; Margaret A. Nicholas, 5001 Lewis place; Thomas M. Bauer, 2127 Broadway; and Thomas D. Yarbrough, 614 North John court.

Lois M. Miska, Bellvue, Ill.; James F. Hoover, 2828 N. 40th, Tennessee avenue; Edna C. Walker, 214 Collinsville; Howard Thorpe, 204 Alton street; Madison; Jean Copeland, Decatur, Ill.

A confidential telephone service through which individuals wishing to remain anonymous can get assistance or give information concerning narcotics and drug abuse without fear of legal consequences started today in Granite City. The number to call is 878-2383.

The idea for a "strictly confidential" telephone service was instigated with full approval of Granite City Police Chief Ronald Veizer, who said the service is the special telephone listing is to permit persons fearful of reprisals or notoriety to obtain information on drug practices.

"We hope parents who are worried whether their young children are using drugs or not will be available for information on treatment centers, or for help with knowledge concerning the legal consequences of drug use," Veizer said Friday.

"Callers may give their names if they wish, but no attempt will be made to induce them to do so unless they choose," the police chief stressed.

Should an inquiry from a caller require a second or third telephone call to provide him with the information he wants, the caller will be assigned a Bureau name or number for identification purposes to avoid recognition, he explained.

Local MH Board 49 Area Oks Budget to be Sent to State

Approval of interim three and six-month budgets and preparations of legal documents for incorporation were the major actions of the Quad-City Mental Health board during a regular meeting Thursday night at the clinic.

Jerry Staten, clinic director, was instructed to submit the budget to the state Mental Health Department, in accordance with action taken at the board's special meeting on Jan. 2. At that time the board voted to rescind its Dec. 18 mass resignation and to accept an offer by the state agency to provide funds for operation of the clinic until differences between the Quad-City board and the County 708 Mental Health board can be resolved.

Member Charles "Bill" Burns and Board President Harold Thomas were named to a committee to arrange with a state agency to incorporate the papers for the local clinic and board. The incorporation is needed to clarify ownership of clinic properties.

The state Mental Health Department first made its offer of full financial assistance in December when it became apparent the county 708 Board would not approve the local clinic board's budget of \$712,000 for two years. The 708 Board said it would approve the local clinic budget only if the director, Staten, was discharged.

62 New Cases
The local board has voted to stand firm behind Staten in his opposition to the local clinic, which added 52 new patients in the first 10 days of December and now has a total of 712 patients from 34 Madison county communities. About 35% of the individuals served are children under 16 years.

Staten explained to the board Thursday night that the clinic stopped taking new patients after 10 beds at the clinic were filled. The clinic has a waiting list of patients with a full staff with the exception of one resignation.

A proposed budget being forwarded to the state mental health board totals \$712,000 for a six-month period. Staten said the clinic presently has about \$200,000 in the bank which could cover some operational costs, other than salaries.

He explained that the state agency often provides more than 50% of operating costs of mental health clinics. The local clinic has been with county tax funds and county financial aid also provided.

Budget Breakdown
The \$38,500 budget being submitted to the state for the three-month period includes \$37,800 for salaries for the staff and \$700 for other expenses.

2 Hurt on Bridge
Two men were injured about 4:20 a.m. Friday when their car crashed into the east end of the McKinley bridge superstructure, severely wrecking the front end of the car and knocked out the lighting system on the east end of the bridge, Venice police reported.

Robert J. Wehrle Jr., 24, St. Louis, driver of the car, was treated at St. Elizabeth Hospital for head and chest injuries. Also injured was Larry Tabnick, St. Louis, a passenger in the car.

Confidential Phone Plan Under Way for Drug Abusers
Too often, a parent is fearful of publicity when drugs and teenagers are mentioned and hesitates to contact the regular law enforcement agency which can help them, Veizer said. "We sincerely hope to help their parents in this regard by offering this confidential service."

Confidential calling can be arranged for those who wish it, complaints may be registered, rumors stopped and information furnished about illicit drug activities followed through by investigation by the appropriate authorities, he said.

"Information on how a parent may determine whether his teenage son or daughter is using drugs will be available and those in serious need of help will be given assistance without having to come to police headquarters," the official said. Those calling 878-2383 are instructed to ask for Mrs. Veizer.

"We can provide accurate and confidential advice. All you have to do is call," Chief Veizer emphasized.

Confidential telephone services such as initiated today in Granite City have been successfully tried in large metropolitan areas elsewhere.

tion, Mo., whose body was found in a burning auto in East St. Louis last October, had pulled a switch on \$9000 worth of barbiturates he had bargained to sell to a St. Louis tavern operator. School, the deputy related, had tried to hide the real drugs at a tavern in Madison, but had been turned down by the owner. Someone had snatched, and a 21-year-old St. Louis woman was set upon as the squealer by the pushers, who got her high on drugs and then took her to a south St. Louis apartment where they tortured her with knives, cutting out her tongue and then slitting her throat with a razor.

Nicholas called upon educators for aid in informing teenagers of the dangers of drug abuse. He added that the great problem of police is getting evidence on pushers and suppliers. "The users have their own 'no snitch code,' and we need help," he added, that the problems range from colleges to junior high schools.

On the state level, C. Lowell Southern, an inspector in the state Division of Narcotic Control, said state agents now are on most university campuses throughout the state and receiving much criticism from the college staffs and students. "But we know the situations on the campuses and we're going to stay," he added.

Main Source is Chicago The state agent said that a few years ago, virtually every drug abuse case handled by the division was in Chicago, which remains the central source of supply. "But now the cases are on the upswing downstate and have been for three years."

He stressed the need for "little Johnnie to be educated on her. He can not only hurt himself physically with drug abuse but also his future life—his chances for a good job and good family life."

Southern said the use of marijuana is known in colleges and is infiltrating to high schools and junior high campuses. "We in law enforcement get the messes and make the arrests, but maybe it could be prevented if little Johnnie is educated."

He said there are three types of drug abusers—the addict, the middle-aged pill and drug society and the young people put for kicks.

"Think of the mother who is shocked that her teenage daughter uses drugs. But there's that mother who lets her teenagers go to sleep and her pills to wake up and her pills to reduce her weight. All her teenage daughter has to do is open the medicine cabinet—there are the drugs," the state agent brought out.

Concern Over Seller He said the primary concern of his division is apprehending

Attempt to Thaw Pipes Sets Fire to Residence

Firemen from the main Granite City station were summoned at 2:30 p.m. Friday to 2881 Center street when the occupant, Glen Schroeder, accidentally ignited the frame house while attempting to thaw frozen water pipes. Damage was listed at \$25.

At 10 a.m. Friday, department personnel were called to extinguish a trash fire at the rear of a store building at 18th and Delmar avenue.

John Boker, 3241 Wayne avenue, summoned firemen from the Nameoki station at 12:25 a.m. Saturday when the family detected smoke in the home. No damage was listed in the report.

the seller. The user, he added, is in violation because of possession, but the sellers are making the money. Criminals, the syndicates control the imported hard drugs, but college students and ex-students control the "old market" on the campuses.

Southern said that most drug users come from ghetto areas. "If we can find a way to control the ghettoes, we have the problem solved," he told the educators.

Another speaker was James Reidelberger of Venice, an office for the juvenile courts, who said juvenile drug abuse cases are much different from other delinquency cases, but that most cases handled by the county juvenile court are for burglary, theft and sex offenses, rather than use of drugs.

He said the court has a choice of rehabilitation, for which there are no proper facilities; probation, which is minimal supervision; outright release; or assignment to an institution, which is merely "storage." Reidelberger commented, "Halfway houses are difficult to establish. We do not have the answers."

Dr. William Rawlins, SIU-SW professor, told the educators that he and his staff are preparing a curriculum for use in schools to acquaint youngsters and teenagers with the dangers of drugs. He said the program is being geared to start at the fifth grade level and proceed through junior and senior high levels.

Other participants in the workshop included Dr. George C. Ackerman, professor of educational administration at SIU-SW, who was chairman; Magistrate J. T. Kelleher of Edwardsville, and Philip Thies of Granite City lawyer and member of the local Kiwanis Club, who participated in a panel summary.

The two local former drug users, both in their twenties, were a married woman and mother who was a hard drug user and a young man of 22 with four small children. Both cited marital troubles and turning to drugs for escape. Both are presently undergoing treatment at Alton State Hospital.

Limit on Interest Rate May Delay Student Housing

Work is proceeding on architectural plans for housing 1000 single students at SIU-SW with high interest rates on revenue bonds may delay construction. The legal limit on bond interest rates for agencies of the state of Illinois is 7%. Bond issuers are now being sold at higher rates, Robert Gallegly, university treasurer, has noted.

Come-Dorbusch, Chicago architects, are designing a proposed \$8 million project including three single-student housing "neighborhoods," each of which would accommodate 300 to 350 students. Each neighborhood is to have its own service and recreational center, with housing arranged in suites.

University officials had hoped to start construction on the two-year project next August. Plans are being completed with the hope that a more favorable bond market in the spring will make it possible for the university to sell revenue bonds within the legal interest rate limit.

When built, the single-student housing neighborhoods will be located west of the academic area, between Circle drive and Bluff road.

Earlier this month, married students moved into 80 of 248 apartments being completed on campus.

Tax-Exempt Agencies Must File Forms Under New Law

Governmental units, churches, schools and non-profit corporations, including fraternal and veteran organizations which have enjoyed a tax-exempt status on real estate property for years must file applications for the tax exemption under a new Illinois law, and will be required to renew the application annually.

James Barton, Granite City township assessor, said the new law, which becomes effective for the 1970 tax year along with a number of other changes in assessing procedure, may result in the assessment of some property not previously included on real estate property rolls.

The new applications for a status of tax exemption must be filed with the assessors' office before Jan. 31. Forms are available at Barton's office.

In the past, Barton explained, there has been no definite system of listing agencies and organizations entitled to tax exemptions under definitions of the Illinois Revenue Act of 1939. Agencies qualifying for exemption and owning real estate property simply were not assessed.

Income Property Taxable
The new law, however, in addition to requiring the filing of an application for exemption, also provides that in instances where property produces income, even though that property is owned by an agency eligible for exemption, the property must be assessed and taxed.

For example, it was pointed out, a church that once had offices in a building that was tax exempt but has since moved those offices to a different location and rented the old offices to someone else would have to pay taxes on the property.

Barton said the new law also contains a provision under which leaseholders are now taxable, so long as they are income producing, even though they are occupied and used by a government unit or an agency eligible for tax exemption.

A perfect example of this change in the law is the present Granite City post office building, Barton said. He pointed out the land on which the post office building is located is owned by the city of Granite City.

It was assigned under a long-term lease to a private developer who built the post office structure and then, in turn, leased the building to the U. S. government. In the past neither the land nor the building was taxable, Barton said.

because it is producing revenue to both the city, under its lease to the developer, and to the developer because of his lease with the U. S. government, will have to be taxed. The building will be tax exempt, however, as it is occupied and paid for by a government agency.

Barton said the tax exemption applications may be filed with his office which will turn them over to the Madison county Board of Review. The review board, in turn, will refer the applications to the Illinois State Department of Revenue which has ultimate authority in their approval.

The revised exemption status will be made effective in the 1970 property assessments on which tax bills will be based for collection in 1971.

Col. Lilly to Command Armoured Training Unit

Lt. Col. Richard A. Lilly, son of Mr. and Mrs. Glen Lilly, 2149 Robert avenue, has been assigned to command an Armoured Training Battalion at Fort Knox, Ky. He arrived last week at Fort Knox to assume the command position.

A U. S. Army helicopter pilot who served two combat tours in Vietnam, Lt. Col. Lilly was stationed the past 18 months at Fort Leavenworth, Kans. Previously, he commanded several training groups, including a new helicopter training wing, organized in 1966 at Fort Riley, Kans.

While based at Leavenworth, the local officer completed his university studies at St. Benedict College, Kansas, where he was graduated magna cum laude Dec. 20 and received a Bachelor of Science degree in Business Administration.

Lt. Col. Lilly was graduated in 1950 from Soudan high school in St. Louis and was drafted into the Army in 1953. The family moved to Granite City in 1955. He began studying for a college degree several years after entering the service, with frequent interruptions during overseas tours.

Accompanying the officer to Ft. Knox was his wife, the former Miss Betty Rabe of Venedy, Ill., and the couple's four youngsters, Stephen, Ricky, Sherry and Douglas.

In 1963, while assigned as an adviser and training officer to South Vietnamese forces, he was shot down twice and received the Purple Heart Medal for an arm wound suffered in another combat mission. Among other awards, he also holds the Army Commendation Medal.

During Lt. Col. Lilly's last tour in Vietnam, he served as company commander of the Tomahawk Group with the 29th Assault Helicopter Co., based north of Saigon.

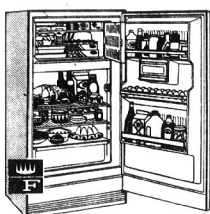

He is a graduate of numerous Army training schools and also the General Staff College at Fort Leavenworth. He entered the Army 17 years ago next month.

GC Plan Commission Oks Zoning for Nursing Home

Approval of a zoning change and for annexation of a tract along Rock road for development as a 100-bed nursing home was given Thursday afternoon by the Granite City Plan Commission.

The petition was submitted by Morris Investment Co. for the tract, but was delayed last month by the city council to determine if there was adequate drainage.

Ray Presley, chairman of the commission, said the tract, which lies at the end of Roosevelt and Emmer streets in West Granite could be served by lines

along those streets as well as another along Rock road.

About one-third of the tract is within the city limits, and annexation is requested for the remainder along with a zoning change to R-3 for multiple occupancy.

Also approved was a request by Donald Adams of Granite City Glass Co. for rezoning a residence at 3732 Nameoki road from a special classification to C-1 commercial for use of the property as a sales office for the glass firm.

The commission's actions are to be presented to the city council at its Jan. 19 meeting.

Williams Says he was 'Sold a Bill of Goods'

W. Dakin Williams of Collinsville whose petitions as a candidate for U.S. senator in the 1970 Democratic primary were ruled insufficient by the Illinois State Electoral board last week admits there were "a remarkable amount of discrepancies" in the signatures on his petitions and said he found no fault with the electoral board's decision.

But, Dakin said, he was sold "a bad bill of goods" by an East St. Louis politician whom, he claims, he paid to obtain a large number of the signatures that were on Williams' nominating petitions. The politician, Morris Campbell, president of the East Side Labor and Socialist party district and president of the Paramount Democratic Club of East St. Louis, was paid \$200 to furnish the signatures, Williams said.

Most of the signatures ruled invalid by the Illinois State Electoral board, which held the signatures in many instances were written by the same person, were those from East St. Louis. The hearing was held on objections filed by Terrell Francis, Granite City lawyer.

Campbell has denied he was paid to obtain the signatures. He said that a friend approached him, asking that he do the work for Williams and that he obtained the signatures as a favor to that friend. He said he knew of nothing wrong with the petitions except that he had stamped his name at the bottom of the sheets rather than signing them personally.

Thefts from 3 Autos

A \$40 12-volt battery was stolen from the 1960 auto of Ann Nadziejko, 2512 Grand avenue, Friday evening in the 1800 block of Madison avenue. Theft of a 12-volt auto battery in the 2000 block of Edwardsville road was reported Saturday by Carl Straub, 2630 Edwardsville street, and on the same day Harold Arnold, 1004 Twenty-first street, reported theft of a \$70 tape recorder from his parked car.

Reports Hit-Run Crash

East St. Louis, 1824 Delmar avenue, told police at 7:15 a.m. Saturday that a hit-and-run car, apparently traveling south on Delmar, skidded on icy pavement and struck his auto parked at the curb.

SIU Board to Meet Saturday at SW

The board of trustees of Southern Illinois University will meet Saturday at the Southwest campus for a regular meeting and may take up the selection of a consulting firm to conduct a management survey of the university administration and two-campus operation.

A committee of trustees met last week in Chicago and narrowed the field of consulting firms to three.

The trustees last November decided to seek recommendations from management experts on the need for an overall management director. The board had earlier voted for employment of a director in the heart of the controversy over the million-dollar campus home being built for University President DeLozier.

Last month, State Senator Merrill Ottwell of Edwardsville said he planned to call for a study to determine if the Southwestern and Carbondale campuses of SIU should be separate universities.

Vandals Cross Wiring

Marvin Kessler, 1921 Joy avenue, informed police at 2 p.m. Friday that vandals crossed four spring wires in his 1967 auto while the vehicle was parked in the garage at home.

Record Usage of Gas, Electricity During Cold Wave

Nineteen percent more gas was used Thursday by Illinois Power Co. customers than was used on the coldest day during the 1968-69 heating season.

Low temperature and high winds over the one-fourth of the state served by Illinois Power combined to bring peak use of gas and to set a winter record high in both demand and use of electricity.

Gas usage on Thursday reached 647,507,000 cubic feet, 18.07% above usage on last winter's most disagreeable day, Jan. 31.

Record consumption of gas by Illinois Power Co. customers began Monday, Jan. 5, with 547,681,000 cubic feet used. The total rose to 601,805,000 on Jan. 6, to 645,000,000 on Jan. 7 and then to 645,657,000 on Jan. 8.

Demand for electricity reached 1,415,500 kilowatts between 6 and 7 p.m. Wednesday, Jan. 7, a record high for winter.

The all-time peak was 1,609,000 kilowatts last July 17, a period of high temperatures and humidity when air-conditioners boosted the need for electricity.

Powell Must Abide by Earlier Court Ruling

Secretary of State Paul Powell was ordered by a panel of three federal judges Friday to abide by an earlier ruling that he list candidates on election ballots in a non-discriminatory manner pending Powell's appeal of the ruling.

On Dec. 5 Powell was enjoined from listing candidates on the March 17 primary election ballot according to his own preferences. Powell appealed the rule and asked that the order be stayed until completion of the appeal.

In ruling against Powell's customary practice of listing candidates in an order of his own choosing, the court acted in favor of a suit filed by State Rep. Robert E. Mann (D-24th district) of Chicago, ad Com. Delegate Bernard Weissberg of Chicago. Members of the panel were U.S. District Judges James B. Parsons and Bernard M. Decker and Appellate Judge Luther M. Swygert.

Unknown Assailant Cuts Man on Cheek
Roy A. Dawkins, 26, of Chicago, who also listed an address in the 2300 block of Delmar avenue, reported to police at 11:30 p.m. Thursday that he was accosted by a young man in the 2700 block of Denver street and during the altercation received a five-inch laceration to his left cheek.

Dawkins was taken by ambulance from the Delmar avenue address to St. Elizabeth Hospital, where he was given emergency treatment and transferred to St. Elizabeth's Hospital in Belleville.

Traffic Arrests
Donald Gordon, 1728 Venice avenue, was charged with speeding at 26th street and Madison avenue Saturday morning. On the same morning Joseph Kezelo, 808 Grand avenue, Madison, was charged with an improper left turn at Nameoki road and East 23rd street.

Janet Marie Kulasza
Wed to Robert Griggs

The wedding of Miss Janet Marie Kulasza and Robert Allen Griggs took place Saturday at St. Mary's Catholic Church. Miss Kulasza, daughter of Mr. and Mrs. John A. Kulasza, resides at 1649 Seventh street, Madison, and the groom is a son of Mrs. Virginia Griggs, 5032 N. Keeler avenue, Chicago.

Mrs. McGarrhan, organist, accompanied Mrs. Eleanor Tulka as she sang "Ave Maria" and "On This Day."

The bride was escorted down the aisle and given in marriage by her father. She wore an Alencon lace floor-length gown with an A-line skirt and Empire bodice, accented with sequins. A cathedral train added interest to the gown. An arrangement of carnation clusters was carried by the bride.

Miss Gladys Okai was maid of honor with bridesmaids Miss Judy Murphy, Miss Diane Kishor, a cousin of the bride, and Miss Loretta Yurchak, another cousin.

They wore identical gowns of oyster white brocade accented with olive green velvet of Victorian styling, with A-line skirts and Empire waists. The Empire band formed a long bow in the back of each dress. Nosegays of olive green carnations were carried.

Mrs. Griggs chose John R. Gavuruk as best man, with Michael Gavuruk, Jack Griggs, brother of the groom, and John S. Kulasza, brother of the bride.

as groomsmen. The wedding vows were said by Rev. Sylvester Micek at 5:30. He used the double ring ceremony.

A reception followed the wedding at the American Legion hall, Venice.

The young couple will reside in Chicago upon returning from a short wedding trip.

The bride is a graduate of St. Mary's school and of Madison high school. She was previously employed as a typist for a St. Louis Advertising Co.

The groom, a graduate of Chicago public schools and of Carl Schurz high school, is currently head of the Griggs Truck Co.

Mrs. Kulasza chose an oyster knit coat dress with olive green accessories.

The groom's mother was attired in a gold suit with matching accessories. Carnation corsages were worn by the mothers.

Out-of-town guests included Mr. and Mrs. Joe Kocemba and son, Wally, and daughter, Helen, Mr. and Mrs. John Gavuruk, Mr. and Mrs. Jack Griggs, Mr. and Mrs. Tom Griggs and family, Mr. and Mrs. Ed Harrington, grandparents of the groom, and Mr. and Mrs. Tom Harrington, all of Chicago, and Mr. and Mrs. Leo Gallos, Mrs. Ronald Yurchak and son, Allen, and daughter, Margaret, of Chicago and several aunts and cousins of the young couple from St. Louis.

The meeting opened with prayer by Mrs. Paul Surbey and several thank you notes were read by the secretary from servicemen in Vietnam who received ditty bags made by the Guild members.

Devotions were led by Mrs. Marie Wille, and there was a skit entitled "No Time for Rocking Chairs," presented by Mrs. Amanda Deutschmann, assisted by Mrs. Ellen Ehler.

Optimists Urged To Support River Festival

John Davis, administrative assistant to John Reedman, chancellor at SIU-SW campus, spoke at the Granite City Optimist Club luncheon meeting Thursday on the Mississippi River Festival.

He was introduced by Ernest Karandjef, Granite City banker, who is working with Dr. Albert W. Trzani to secure the necessary funds for a second Festival this summer.

In his speech, Davis said, "The impact of the festival on the two-state metropolitan area has been in binding both sides of the river together, and as a cultural aspect has satisfied the need for public service plus an outlet for students in group activities."

He compared last year's effort to similar youth festivals held throughout the country, which have not been as satisfactory, saying this function was different in administration and was completely supervised, planned and carried out. Currently there is a need for young people to associate with groups and group expression, he stated.

In comparing the Mississippi River Festival with others, Davis said, "The festival received good nationwide publicity in publications such as the Saturday Evening Post, Newsweek and Reader's Digest, thus saying in essence that young people and parents enjoyed this type of production, and the entire effort was worthwhile."

There are meetings in progress by the incorporators of the Mississippi River Festival, Inc., a non-profit organization, to enlist private financial support to continue the festival at the Southwestern campus of Southern Illinois University.

Davis concluded his speech by stating that most businesses go in the first year of operation but the people cannot let an idea die for this reason. This is the crucial year for such an undertaking, he added.

Vice-president Ted Ellerman presided at the business meeting, outlining the month's programs.

Arthur Roseman, co-chairman for the Christmas Tree sales, submitted his report, stating this year was a successful year for the annual project.

Saver's Protection Increased to \$20,000

BY CONGRESSIONAL ACTION

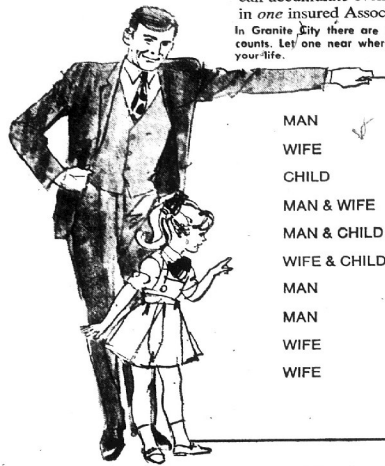

On December 24, 1969, the President of the United States signed legislation, enacted by the U. S. Congress, increasing the insurance of each saver's funds from \$15,000 to \$20,000.

Thus CONGRESS once again affirmed its confidence in the strength of the Federal Savings and Loan Insurance Corporation, and in the intrinsic soundness of ably managed savings and loan associations. The newly extended coverage becomes effective immediately.

The Federal Savings and Loan Insurance Corporation, a permanent agency of the United States government, is the protector of funds in nearly 4500 Insured Savings and Loan Associations throughout the nation.

This increased protection for your savings means you now can accumulate even larger cash reserves in complete safety, in one insured Association.

In Granite City there are three Associations offering Insured Savings Accounts. Let one near where you live or work help you build security into your life.

Less Weekly Hours Worked; Used Cars Cheaper But Services Costlier

(Bureau of Labor Statistics)

The purchasing power of the nation's rank-and-file workers declined again in November. A seasonal reduction in average weekly hours and the continued rise in consumer prices accounted for the decrease.

Gross weekly earnings of production and nonproduction workers fell 62 cents between October and November to \$116.63. For the second month, declines in gross weekly earnings were due entirely to reductions in average weekly hours.

After adjustment for price increases, gross weekly earnings were 1.1% below the October level and only 0.7% above a year ago.

Spending earnings, or take-home pay, for the worker with three dependents fell by 47 cents between the month to \$101.54. Compared to November 1968, however, take-home pay was up by \$4.99 (5.2%).

Real spendable earnings—take-home pay expressed in 1967-68 dollars to reflect consumer price changes—averaged 78 cents lower in November for the worker with three dependents.

As in October, a slight increase in purchasing power among workers in finance, insurance and real estate was offset by declines in the other major industries.

At \$77.81, real take-home pay for the worker with three dependents was 0.2% below the November 1968 level and 2.3% below the record registered in September 1968.

November marked the third consecutive month that real earnings have remained below year-ago levels.

The Consumer Price Index rose 0.5% in November to 130.5 (1957-59=100).

The increase was due mostly to higher prices for food, apparel and nearly all types of consumer services.

Gasoline and used cars posted the only significant declines.

The November rise put the all-items index 5.8% above a year ago.

For major components of the Consumer Price Index, percent changes at annual rates for the past year are shown below:

All items—5.8%; Food—6.3%; apparel commodities—

5.7%; nondurable less food and apparel—3.6%; durables—3.8%.

Services—7.1%; Rent—3.6%; household services less rent—3.9%; transportation services—7.8%; medical care services—7.2%; other services—4.7%.

Price index percent changes at annual rates over the last three months, August 1969 to November 1968, are as follows:

All items—5.6%; Commodities—4.8%; Food—2.0%; apparel commodities—14.4%; nondurable less food and apparel—2.8%; durables—5.6%.

Services—6.0%; Rent—4.0%; household services less rent—8.8%; transportation services—7.6%; medical care services—1.8%; other services—4.8%.

Food prices, which had previously declined somewhat in November, rose 0.7% largely on the strength of substantial increases for fresh vegetables and eggs.

Meat prices were down less than usual as prices failed to show their full seasonal drop. Restaurant meals and other food consumed away from home continued to climb, but at a pace below the previous month's record.

Nearly all types of services moved higher in November. The most notable increases were for services associated with home ownership, including telephone, interest costs, property taxes, insurance and residential gas rates.

Charges for medical care services posted a relatively moderate advance, as physicians' fees rose at the rate for the second consecutive month.

Increases in auto insurance rates and repair costs were the major factors behind the significant rise in transportation services.

Prices of nondurable commodities other than food rose 0.3%.

Apparel prices, especially women's dresses, skirts and slacks, were up substantially more than usual in November, and cleared the previous year's record. However, by a drop in gasoline prices in several areas.

Prices of consumer durables rose less than seasonally—primarily reflecting a decline in used car prices.

Brush Up On Your Driving Habits

(Tri-City and Illinois Bar Associations)

The start of a new year is a good time to brush up on your safe driving techniques, especially if your driver's license expires during 1970.

This will be the second year of Illinois' program to re-examine all licensed drivers and another 750,000 motorists will be subject to examination. All 6,800,000 licensed drivers are to be examined over a nine-year period.

A driver with an expired license will receive an application for renewal in the mail. The \$8 license fee is required to be examined over a nine-year period.

A driver with an expired license will receive an application for renewal in the mail. The \$8 license fee is required to be examined over a nine-year period.

If the application form is yellow, a person's license will be renewed for three years automatically upon application and payment of the \$8 license fee to the Secretary of State. He will be retested later.

However, if it is a white form, he must report to a testing station for examination.

If there is a number "6" on the white renewal application form (in shaded area near the black arrow) (traffic law) the driver will be required to take only the written test of his ability to recognize traffic signs and his knowledge of traffic law, plus an eye test.

A number "7" on the form means he also was required to demonstrate his driving skills on the road.

If you ask a question of those drivers who will face a road test, here are a number of clues about what to do and what not to do.

1. Starting. Enter your car from the curb side. Fasten seat belts and adjust the rear view mirror.

Check moving traffic and signal before pulling out. If the law says you must activate the left turn signal when putting out from a parallel parking position, do so.

2. On the road. Keep both hands on the wheel. Move at the speed of the traffic. Keep your interval—about one car length between you and the car in front of you.

At intersections. Approach with caution at reduced speed even when no stop sign, signal light or other traffic control is apparent. Yield to cars in the

intersection, or to pedestrians in the crosswalk.

4. Stopped. Apply brake to warn motorists behind you. At any intersection where stop is required (by a stop sign, flashing red light or stop sign) come to a complete stop before entering the crosswalk or intersection. If there is a stop line, stop at that line.

A flashing red light and stop sign (always red with white lettering and octagonal) have the same meaning. Always yield to pedestrians in a crosswalk and to a vehicle on a through highway before proceeding.

5. Backing. Check traffic in rear view mirror. Back slowly. Look back over your right shoulder when backing, not in the rear vision mirror.

6. Turning. Activate the appropriate turn signal (100 feet before any turn in a business or residential area, 50 feet before a turn in other areas). Get into the proper lane for turning as soon as possible.

7. Passing. Be sure there is plenty of open road ahead. Signal before moving into the passing lane. After passing, be sure you are completely past the other vehicle and give the proper signal before pulling back into the driving lane.

Do not pass on a hill, or within 100 feet of an intersection or where there is a solid yellow stripe on your side of the center line.

8. Parking. Unless angle parking is permitted, park parallel to and with your right wheel within 12 inches of the curb.

For parallel parking, pull up even with the car and at a 45-degree angle to the curb and your eyes about even with the rear bumper of the other car. Straighten out your wheels gradually.

When your front bumper is about midway of the other car, cut back to the left and continue backing into the space, straighten out the

S/Sgt. Albert Graves In Top Unit of USAF

S/Sgt. Albert M. Graves, grandson of Mrs. Dovie I. Graves of 1930 Beckwith avenue, Madison, is a member of the 80th Combat Support Group that has earned the U. S. Air Force Outstanding Award.

Sgt. Graves, a security policeman at Grand Forks AFB, N. D., will wear the distinctive service ribbon to mark his affiliation with the group.

His group was cited for exceptionally meritorious service from July 1968 through June 1969.

The sergeant is a graduate of Madison High School and has served in Vietnam.

His wife, Barbara, is the daughter of Mr. and Mrs. Bill Watkins of Mt. Olive, Ill.

Income Tax Aid Here Mondays by IRS

A representative of the Internal Revenue Service will again be at the city hall in Granite City starting today, to assist Quad-City residents with their income tax returns.

The agent will be here each Monday from 9 a.m. to noon and 1 to 4 p.m. through April 13. No appointments will be made and residents will be served on a first-come basis.

The office is in room 11 on the third floor of the city hall building.

Stolen Car Recovered

A 1963 model auto stolen from in front of the home of Julius Johnson, 1227 Calhoun street, Venice, was recovered a short time later when it was found on County road by Venice police, authorities reported Monday.

Illinois Power Studying Order Issued by SEC

Wendell J. Kelley, president of Illinois Power Co., said today at Decatur, a recent Securities and Exchange Commission order concerning the acquisition of Central Illinois Public Service Co. common stock by Illinois Power is under study to determine what course future plans may take.

The SEC granted the IP application to acquire the CIPS stock but imposed a condition that the two companies must get rid of their gas properties.

Illinois Power Co. has contended that every plan of divestiture of gas operations which they have been able to develop would result in damage to both companies, their stockholders, and customers, if they are required to make it effective at the present time.

"Unless a way can be found to accomplish the divestment without injury to the investors and customers of Illinois Power Co. and CIPS, the condition cannot be accepted," Kelley said. "We have made extensive studies prior to filing our petition and during the year and a half period since then but have not been able to develop a plan."

"As a matter of fact, divestiture would reduce and perhaps eliminate the savings which would accrue from the proposed acquisition even if it would be found a solution, perhaps an appeal must be taken, but at this time I cannot predict whether it will go ahead or not."

Both companies provide electric and gas services in interlocking areas embracing much of the south three-fourths of the state. At the time the proposal was announced in March 1968, officials of both companies pointed out the geographically ideal situation for operating as combined integrated systems.

JAYCEE RODEO CO-CHAIRMEN, Gary Davis (left) and Ron Degonia (center), who were named by Jaycee President Stan Noy (right) to head the "Championship Rodeo" event, planned for July 18-19 at Tri-City Speedway. Degonia, a former full-time rodeo clown, introduced local Jaycees to his trained sheepdog, Randy, and miniature cowboy rider, Speedy, an East Indian monkey, who will perform in the show.

GC Jaycees Preparing for Championship Rodeo Here

Stanley Noy, president of the Granite City Jaycees, today named Gary Davis and Ron Degonia as co-chairmen of the Jaycees' first "Championship Rodeo" presentation, to be staged at the Tri-City Speedway on July 18 and 19.

The mid-summer event which has been officially sanctioned by the International Rodeo Association, is expected to attract top rodeo contestants from the U. S. and Canada. The local rodeo will be among several similar contests held in various states at which top flight riders can accumulate winning points toward national championship.

To make certain all well-known riders in the American and Canadian rodeo circuit are aware of the upcoming tournament in Granite City, the newly appointed co-chairmen will depart Thursday for Monroe, La., where the International Rodeo Association will hold its annual convention next week.

Davis and Degonia will be joined in Monroe Saturday by the local Jaycees president with the trio planning to contact prospective rodeo contestants among those attending the convention to receive national championship awards.

Commenting that the Jay rodeo will be the largest and most expensive production ever attempted by the Granite City Jaycees, Noy said that all proceeds from the event will be used to further projects in the local community.

Committee chairman appointed yesterday by the president, include Gary Geroff, finance; Rich Dawdy, publicity; Carl Bernice, grounds; John Krekovich, parade; Dave Moser, posters; Wayne Worthen, banners; Ann Davis, Jaycee participation; Pete Novotich, concessions; Earl Warnhoff, tickets; Fred Halderman, entertainment; Stan Brown, manpower; and Bob Beshoff and Danny Harris, concessions and tickets.

Degonia's part in weekend convention will be in the dual role of Granite City Jaycee representative and rodeo performer. The local Jaycee will be recognized as a top rated rodeo clown who, with his trained animal, has delighted youthful audiences at many shows. He also has been invited to entertain the conventioners, it was learned.

Harold Bailey, 49, Dies After Surgery

Harold Bailey, 49, of Rural Route Six, Box 40, Edwardsville, a lifelong resident of this vicinity died at 12:40 a.m. Saturday at the Missouri-Pacific Hospital, St. Louis, after undergoing surgery on Friday. He had been under medical care for the past six months for a diabetic condition.

Born in Stewart County, Tenn. he came to Granite City at the age of five, residing here until 1963, when he moved to Edwardsville.

His employment was at the Illinois Terminal Railroad, where he had worked for 19 years as a switchman.

He was a member of the Second Baptist Church of Granite City.

Surviving are his wife, Lilian, a son, Jon Bailey of Stanton; three daughters, Mrs. Martin (Barbara) White of Edwardsville, Mrs. Charles (April) Hagan of Carpenter, Ill., and Mrs. Joseph (Joy) George of St. Louis; his mother, Mrs. Harvey Bonniar of Granite City; one sister, Mrs. Willard (Merle) Barth of Granite City; and seven grandchildren.

Funeral arrangements are given in today's obituary column. Services were to be held at 1 p.m. today at a Granite City funeral home, with burial at Sunset Hill Cemetery.

Gasoline in Home Causes \$75 Blaze

A fire caused by cleaning paint brushes in a pan of gasoline resulted in \$75 damage to the living room contents of the upstairs apartment of Robert and Dolores Watkins in a four-family brick flat at 1373 Edison avenue about 12:40 p.m. Friday.

Firemen said Watkins and a neighbor were trying to douse the flames with pans of water when they arrived. A hole was burned in the rug.

The pan of gasoline apparently was ignited by a gas space heater just two feet away, firemen said, adding that 31 adults and children live in the building, and the occupants were able to return to their apartments within a matter of minutes.

Different aspects of presenting a rodeo were reviewed by Degonia, who also gave the local Jaycees a sample of "thing to come" by introducing the group to his performing sheepdog, Randy, and the animal's miniature cowboy companion, Speedy Gonzales, an East Indian monkey. The pair performs creditably in rounding up sheep at rodeos.

River Road Opening to Await Warmer Weather

Opening of the Great River Road (I-55) from north of Pontoon road to Niedringhaus avenue in Granite City will be delayed until warmer weather permits completion of about one week of work that still remains, highway officials reported today.

A highway engineer explained that one major problem preventing opening of the highway is an oil treatment of the pavement which protects the concrete against salt in the future. This treatment can only be applied when temperatures are higher than 40 degrees, he said. Some shoveling work requiring grading also remains, it was said.

Dark smoke and soot from Marshall grade school Sunday morning was attributed to the fire being turned higher in the furnace due to cold weather when the boiler was being corrected and did not stem from the quality of fuel oil, which is the same as that used in other schools, officials said today.

The heating problems are to be reviewed by a Granite City school board meeting at 7:30 tonight.

Other topics which include a special education building, a teacher aide for a trainable handicapped class, a job description for a special education consultant, an architectural contract on a high school gymnasium structure, the school steam line, school truck rates, school remodeling work and the next board election.

Rep. Vadablene, long-time opponent of many rural telephone company policies and a frequent critic of the ICC, cautioned, however, that citizen participation in the move to improve service, the commission's orders are implemented.

20 Communities Represented

New Members Welcome for SIU-SW's Choral Society

Teamwork, discipline, diligence and the desire to sing has stamped the Southern Illinois University Community Choral Society with the hallmark of good music.

Singers come from 20 communities each Tuesday night at 7:30 for practice sessions at the SIU-SW Campus. Included are a Protestant minister, a Catholic nun, several husband-wife teams, a girl-boy friend combination, a mother-daughter duo, a housewife who saw a poster concerning the group and responded, and a director of a rock and roll band.

Makeup of the chorus disproves the idea that there can be no meeting of minds where town and gown are concerned, says Leonard Van Camp, who is also in charge of choral activities at SIU-SW.

"Despite the divergent age, formal musical education, race, religion, income and occupation," Prof. Van Camp said, "there is no dissimilarity of interest in good performance. All of the choristers want to become acquainted with great music at the performer's level and to interpret it for the public's pleasure."

After a Christmas recess following a performance of Verdi's Chamber Mass, the Choral Society resumed rehearsals this week. The group is now rehearsing for two performances of Verdi's Requiem to be presented in May with the St. Louis Symphony Orchestra. According to Van Camp, Verdi's Requiem is "a singer's delight."

Some refer to it as his "best opera," in which he pours out the theatrical qualities for which he was famous.

New members are welcome, the director said. Rehearsals are held in Room 1402 of the Peck Classroom building. No auditions are required.

Organized in 1959 by Herrold Headley, former head of the Fine Arts Division, the Community Choral Society has been under the direction of Van Camp since 1963. Some of the original members are still singing with the group. The chorus has been singing with the St. Louis Symphony since 1959 and has also performed with the St. Louis Philharmonic and the Alton Civic orchestras.
